*** To continue the commitment to interculturality by involving the Congregations.

Engagements Group in Italian 1 - Constellation Rome

1.*** We are committed to raising awareness in the attention and care of the planet in initial formation and in educational works.

*** As a concrete action on Rome we would like our Constellation to make a visible gesture for the city: open letter to the city council/cleaning a street in Rome/ involving the laity in these actions/ etc.

2.*** We shared the commitments that our Congregations are already implementing, especially with regard to migrants in collaboration with other organizations: Caritas, Centro Astalli, Cunità S. Egidio.

*** We feel the need to qualify formation for INTERCULTURALITY as a priority.

*** We ask UISG for HELP in collaboration with USMI for the organization of experiences, intercultural workshops and training courses on Interculturality.

Commitments of The Constellation Italy

1.*** Support UISG participation in JPIC so that it may offer formation paths (during meetings) and through networking with the contact persons of each congregation offer support for formation at all levels. Offer material for the communities, but also for educational works.
Values become a way of life by touching the base and the communities.

*** Formation paths on the theme "Ecological conversion" for ongoing formation and to integrate the values promoted.

*** To sensitize the Congregations and communities so that these values transform life through choices (reduction of plastic, recycling, critical consumption, attention and care for the environment, avoid changing mobile phones, etc.).

2. *** Support and promote Talitha Kum - Sicily

*** Raising awareness of inter-religious dialogue (prayer and promotion)

*** Identify within the UISG a contact person who, through a concrete study, identifies a path in synergy with other forces to be a voice against the current. It is a matter of creating a network with various forces (Astalli, Sant'Egidio, Parishes or Bishops) to make themselves the voice of the new poverty in a socio-political context that is opposed to the Gospel and human dignity.

*** Do not exclude concrete forms of protest through mass media, petitions, etc..

*** We ask the UISG to encourage training and consultancy for the creation of Policies and the processing of sensitive data.

Spanish Group 1

1. Action in testimony of commitment to the planet:

*** We will not adhere to the UISG project which is on the march.

*** Each Congregation seeks its concrete action

*** Appoint one person to take a direct part in the life of the country.

*** Sharing meaningful experiences

2. Prioritizing interculturality, looking to the future of intercongregationality.

Spanish Group 2

1. *** Appoint a reference person from each Congregation (in person or by appointment) to support the campaign of the planet and to socialize it.
*** For a CLEAN ROME - we suggest that the commission for Justice, Peace and Integrity can give us guidelines to organize common commitments to help us achieve a CLEAN ROME.

2. *** As a new area of attention, to direct a space of help to the Sisters who have suffered abuses. Training in this area and prototype of implementation.
*** To develop a framework protocol for the prevention of abuse of minors and vulnerable adults.
*** In the area of migration - focus on the migration that is being produced in the countries of Latin America.

We propose for the Constellation of Rome:

- To focus on the theme of abuse in the Sisters
- How to orientate?
- How to train and educate?
- How can you make these situations easier?
